Design relaunch

We are proud to present the completely revised SLA-Line. The design has been carefully reworked, with an elegant front frame made of high-quality aluminium creating a modern and luxurious look. The almost frameless design gives the SLA-Line an exclusive lightness. The focal point is our optimised, front-firing soundbar, which provides an outstanding sound experience and forms the heart of the design.

Integrated DVD player

Space-saving and elegant slide-in DVD player for direct playback of films, series and music without the use of external devices. The discreet design enables seamless integration into the chassis and combines functionality with mobility – perfect for flexible use on the go.

Next Generation – webOS Hub

Discover the future of TV with the latest generation of the webOS Hub! Our state-of-the-art TV sets offer you advanced features such as PVR recording, time shift, Apple AirPlay and Matter support. Redesign your entertainment experience and enjoy television on a whole new level – intuitive, innovative and top-notch.

Apple AirPlay & HomeKit

Use the full potential of your Apple ecosystem with alphatronics. Thanks to Apple AirPlay 2, you can stream your content seamlessly and in the highest quality, while Apple HomeKit gives you complete control over your smart home – anytime, anywhere. Experience unparalleled convenience and freedom for your personal entertainment and smart home.

Flexible viewing with PVR recording

Never miss a moment again! With the PVR recording function, you can save your favourite programmes to watch whenever you want. The time shift function allows you to pause, rewind or fast-forward the current programme according to your needs. Watching TV has never been so flexible and convenient.

Focus on the display (panel)

Experience image quality at the highest level. Our displays offer impressive features, including an ultra-wide viewing angle of 178° horizontally and vertically, a perfect pixel error class of 0 (no pixel errors) and an anti-glare matte surface. No matter what the conditions, our displays always provide you with a flawless image.

25 years of experience and innovation

Our many years of experience in the world of consumer electronics is the key to the constant further development and improvement of our TV sets. To honour this tradition, our products have proudly borne the seal 'German Quality - Since 1999' since this year, a sign of exceptional reliability and innovation.

Carefully tested - made for any extreme

Our television devices not only meet all legal requirements, but also undergo strict vibration and climate tests. Whether at sub-zero temperatures at the North Cape or in the scorching heat of the desert - alphasatronics devices deliver reliable performance and guarantee functionality in any situation.
